Vol. 5678

Graphic Kits

High Quality Stripes For All Types Of Vehicles

Volumes 5 to 8 **Mega Collection**

**Thank you for purchasing our Xtreme Graphic Kits!
We hope you will enjoy working with it.**

Tips for using Xtreme Graphic Kits CDs:

Import the JPG format first, then import the CUT file and align it on top of the JPG. Use the CUT file for cutting or as a mask so you can apply Contour Cut (depending on the software you are using). Always change the size of the JPG and the CUT files together.

Duplicate and mirror the graphics before printing - one for each side of the vehicle.

Suggested cut speed is 10cm/second to keep contour cut as accurate as possible.

Graphics should be cut the same day as printed. The humidity and temperature can cause shrinkage or expansion of the vinyl. In such a case the contour cut will not line up.

Under copyright law, the software and catalog may not be copied, in whole or in part, without written permission of Taylor Digital Imaging.
